

Just the Basics DVD contents (revised daily)

Presented by the Sequim PC Users group

Compiled by Steve Solberg

Updated: July 9, 2017

June 30, 2008 (original date for class & materials)

These two **DVDs** have full courseware material for the Just the Basics class. All programs are **Freeware or Open Source**. Documents from past presentations are in separate folders according to the type of document. All programs updated to the latest versions as of this update. All programs come with a description or a user manual.

Note1: Some programs have 32 bit and 64 bit versions then both programs are listed.

Note2: There is a description inside each folder with a URL for reference and future updates.

Note 3: This is a new layout using Tables from MS Word for easy reading.

Note 4: All of these programs work with Windows 10 unless otherwise specified.
